SAW PANTS

Poly Pro

360° stretch polyester · ~2.2 lbs · 3600 TCS

360° stretch polyester

4-layer DuPont Kevlar, 180° + 4″ coverage

PRODUCT OVERVIEW

PRODUCT NAME	Faller's Poly Pro 3600 Chainsaw Pant
SKU	P001
PRODUCT TYPE	Chainsaw Safety Pants (TCS Rated)
SIZES AVAILABLE	28″–30″, 30″–32″, 34″–36″, 38″–40″, 42″–44″ Waist
RETAIL PRICE	From $329.99 USD (42″–44″ $399.99)
TCS RATING	3600 ft/min Threshold Chain Speed
MADE IN	North America (British Columbia, Canada)

At a Glance

Built for fallers who move all day: a 360° stretch heavy-duty double-knit 13 oz polyester shell with a 4-layer DuPont Kevlar pad delivering 180° + 4″ of certified protection — the full front plus an extra 4″ on the left side of each leg — from 4″ above the crotch to the ankle, at roughly 2.2 lbs. A high protective backflap, elastic waist with suspender buttons, and two flap-protected pockets round out the build.

SAW PANTS

Summer Pro

100% cotton drill · 4-layer Kevlar · 3600 TCS

100% cotton drill — breathable

4-layer DuPont Kevlar, 180° + 4″ coverage

PRODUCT OVERVIEW

PRODUCT NAME	Summer Pro 3600 Chainsaw Pant
SKU	P005
PRODUCT TYPE	Chainsaw Safety Pants (TCS Rated)
SIZES AVAILABLE	28″–30″, 30″–32″, 34″–36″, 38″–40″, 42″–44″ Waist
RETAIL PRICE	From $329.99 USD (42″–44″ $399.99)
TCS RATING	3600 ft/min Threshold Chain Speed
MADE IN	North America (British Columbia, Canada)

At a Glance

The warm-weather choice: a breathable 11 oz 100% cotton drill shell that stays comfortable in the heat, backed by the same 4-layer DuPont Kevlar pad with 180° + 4″ coverage certified at 3600 ft/min TCS. Light, durable, and built for long summer days on the saw.

SAW PANTS

Denim Pro

Denim shell · 4-layer Kevlar · 3600 TCS

A rugged denim-shell saw pant with the classic look and hard-wearing feel of denim, backed by the 4-layer DuPont Kevlar protection system certified at 3600 ft/min TCS. *Photo and full spec sheet to be finalized — specifications below are drawn from the current raingearpro.com listing.*

SAW PANTS

Hurricane Pro

100% waterproof rip-proof nylon · 3600 TCS

Product photo

Callout diagram

PRODUCT OVERVIEW

PRODUCT NAME	Hurricane Pro 3600 Chainsaw Pant
SKU	P003
PRODUCT TYPE	Waterproof Chainsaw Safety Pants (TCS Rated)
SIZES AVAILABLE	28″–44″ Waist
RETAIL PRICE	From $379.99 USD
TCS RATING	3600 ft/min Threshold Chain Speed
MADE IN	North America (British Columbia, Canada)

At a Glance

A fully waterproof saw pant built on a 100% waterproof, rip-proof nylon shell for wet-weather cutting, with the 4-layer DuPont Kevlar protection system certified at 3600 ft/min TCS. *Photo and full spec sheet to be finalized — specifications below are drawn from the current raingearpro.com listing.*

SAW PANTS

Half ’N’ Half Pro

Waterproof 420D nylon front · stretch polyester back · 3600 TCS

420D nylon front · stretch polyester back

Elastic waist, backflap & flap-protected pockets

Reinforced seat patch & crotch blowout shield

PRODUCT OVERVIEW

PRODUCT NAME	Half ’N’ Half Pro 3600 Chainsaw Pant
SKU	P004
PRODUCT TYPE	Chainsaw Safety Pants (TCS Rated)
SIZES AVAILABLE	28″–30″, 30″–32″, 34″–36″, 38″–40″, 42″–44″ Waist
RETAIL PRICE	From $349.99 USD
TCS RATING	3600 ft/min Threshold Chain Speed
MADE IN	North America (British Columbia, Canada)

At a Glance

The hybrid of the saw-pant line, pairing a waterproof, rip-proof 420-denier nylon front with a breathable stretch-polyester back. The tough nylon front stands up to abrasion and wet conditions where the pant takes the most wear, while the polyester back keeps full freedom of movement. Carries a 4-layer DuPont Kevlar pad (180° + 4″ coverage, 4″ above crotch to ankle, 30″ inseam) certified at 3600 ft/min TCS, plus a nylon-reinforced seat patch and crotch blowout shield with bar-tack stitching.

SAW PANTS

Rigger Pro

600D woven front · reinforced seat · 3600 TCS

600D woven polyester front

Reinforced nylon seat patch (back)

PRODUCT OVERVIEW

PRODUCT NAME	Rigger Pro 3600 Chainsaw Pant
SKU	P009
PRODUCT TYPE	Chainsaw Safety Pants (TCS Rated)
SIZES AVAILABLE	28″–30″, 30″–32″, 34″–36″, 38″–40″, 42″–44″ Waist
RETAIL PRICE	From $349.99 USD (42″–44″ $449.99)
TCS RATING	3600 ft/min Threshold Chain Speed
MADE IN	British Columbia, Canada

At a Glance

The heavy-duty choice for riggers: an abrasion-resistant 600D woven polyester front paired with a breathable stretch-polyester knit back, plus a nylon-reinforced seat patch and crotch blowout shield with bar-tack stitching. 4-layer DuPont Kevlar, 180° + 4″ coverage, certified at 3600 ft/min TCS.

SAW PANTS

ADDENDUM

Pant Comparison Deep Dive

Coverage, cut ratings and fit — so the right pair gets bought once

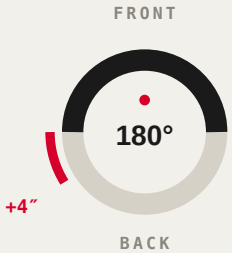

01 COVERAGE

What Actually Wraps Your Leg

Most chainsaw injuries happen in the same place, and it's not where most pants protect you. The vast majority of sawyers cut from the left: right hand on the throttle, left hand on the bar. That puts the left side of your legs directly in the path of a kickback — exactly where most cuts land, and exactly where cheaper pants stop protecting.

That's why every Rain Gear Pro saw pant wraps Kevlar around the **full front (180°), plus an extra 4″ on the left side of each leg**, right where the accidents happen. It runs from 4″ above the crotch, shielding the femoral artery, all the way to the ankle.

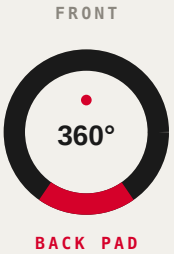

Need more? The **Seismic ProMax** and the **Faller's Poly Pro with Backpad** add full 360° Kevlar calf protection. And it's sewn in, not dropped in: loose Kevlar inserts shift while you work and leave gaps exactly when you're moving. Ours is built into the pant, so the protection stays where the danger is.

180° + 4″

EVERY RGP PAIR

Full front + 4″ on the left side of each leg.

360°

SEISMIC PROMAX + BACKPAD MODELS

Full wrap + a dedicated back pad.

PANT COMPARISON DEEP DIVE

+4″ of Kevlar on the **left side of each leg** on every pair, on top of full-front coverage. Up to a **360°** wrap on the Seismic ProMax and Faller's Poly Pro with Backpad.

02 THE RATING

How Protection Is Measured

Cut protection is rated by **Threshold Chain Speed (TCS)**: the chain speed the fabric is rated to stop, measured in feet per minute. A Pro rating holds a chain running at 3,600 ft/min.

TIER	BUILD	TCS	WHO IT'S FOR
PRO	4-layer Kevlar	**3,600**	The vast majority of crews
PROMAX	6-layer Kevlar	**4,100**	Highest-exposure cutting

COVERAGE COMPARED

For reference: the common industry coverage designs are front-only at 180° and full-wrap at 360°. Rain Gear Pro covers the full front and adds 4″ on the left side of each leg on top.

FRONT-ONLY DESIGN · TYPICAL COMPETITOR **180°**

RAIN GEAR PRO · FRONT + 4″ ON THE LEFT SIDE OF EACH LEG **+4″**

FULL WRAP · SEISMIC PROMAX **360°**

PANT COMPARISON DEEP DIVE

03 CHOOSING

How to Pick Your Pair

Every pair carries the same cut protection underneath. What changes is the outer shell, matched to your climate and how you work. Three ways in, fastest first:

1 · QUICK PICK — JUST TELL ME WHAT TO GET

MOST CREWS →

Faller's Poly Pro

WET CLIMATES →

Hurricane Pro

MAXIMUM EXPOSURE →

Seismic ProMax

2 · OR FIND YOURS BY CONDITIONS

Summer Pro

→ HEAT · SUMMER

100% cotton: light and breathable so you last the day.

Faller's Poly Pro

→ CLIMBERS · ARBORISTS

Full 4-way stretch polyester for maximum mobility, all season. Step up: Poly ProMax, 6-layer / 4,100 TCS.

Half 'N' Half Pro

→ CHANGING WEATHER

Waterproof 420D nylon front, breathable stretch-poly back: versatile when the day can't decide.

Winterlined Pro

→ FREEZING

Polar-fleece lined and 100% waterproof for deep-winter cutting.

Seismic ProMax

→ MAXIMUM · SLASHING CREWS

6-layer, 4,100 TCS, with the full 360° back pad and belt loops.

Denim Pro 3600

→ TOUGH · DRY DAYS

14 oz denim: classic fit, work-ready strength for dry conditions.

Faller's Poly Pro with Backpad

→ CLIMBERS · ARBORISTS · FULL CALF

Same build as the Faller's Poly Pro, plus a full-calf Kevlar backpad for 360° protection from knee to ankle.

Hurricane Pro

→ COLD · WET · HARSH

100% waterproof shell built for the worst weather you'll stand in.

Rigger Pro

→ RIGGERS · ABRASION

Woven-poly front with a heavy-duty reinforced seat patch.

Nomex Fire Pro

→ WILDLAND FIRE

Nomex IIIA fire protection, ultra-light, wildland-fire compliant.

PANT COMPARISON DEEP DIVE

3 · OR COMPARE THE SPECS

MODEL	TCS	BUILD	SHELL	WATERPROOF
Summer Pro	**3,600**	4-layer	Cotton	No
Denim Pro 3600	**3,600**	4-layer	14 oz denim	No
Faller's Poly Pro	**3,600**	4-layer	Stretch poly	No
Faller's Poly Pro w/ Backpad	**3,600**	4-layer	Stretch poly	No
Faller's Poly ProMax	**4,100**	6-layer	Stretch poly	No
Half 'N' Half Pro	**3,600**	4-layer	Nylon / poly	Front
Hurricane Pro	**3,600**	4-layer	Nylon	Full
Winterlined Pro	**3,600**	4-layer	Lined nylon	Full
Rigger Pro	**3,600**	4-layer	Woven poly	No
Seismic ProMax	**4,100**	6-layer	Woven poly	No
Nomex Fire Pro	**3,600**	4-layer	Nomex IIIA	No

04 THE FIT

Sized to Move

Cut for a full day's range of motion. Check the size chart for each model in this guide. If you sit at the higher end of a waist range, size up.

A WORD ON SAFETY

Cut protection reduces risk: no garment makes chainsaw work safe. Always follow safe-use practices, keep your saw maintained, and meet your employer's requirements.

30-DAY RISK-FREE · NO RESTOCKING FEE **EST. 1988 · MADE IN CANADA**

TCS ratings and coverage figures are Rain Gear Pro's own verified specs.
